**EMGOLD ANNOUNCES
FLOW-THROUGH AND NON-FLOW-THROUGH
PRIVATE PLACEMENTS**

Vancouver, British Columbia – August 19, 2020 -- Emgold Mining Corporation ("Emgold" or the "Company") (TSX Venture Exchange: EMR) announces that, due investor interest generated from its recently closed CDN\$2.0 million private placement (see August 7, 2020 press release), the Company intends to complete an additional non-brokered non-flow-through private placement and a non-brokered flow-through private placement, with details outlined below.

NON-FLOW-THROUGH PRIVATE PLACEMENT

The non-brokered non-flow-through private placement (the "NFT Offering") will consist of up to 22,222,222 units (the "NFT Units") at a price of CDN\$0.09 per NFT Unit for gross proceeds of up to CDN\$2,000,000. Each NFT Unit will consist of one common share in the capital of the Company (a "Share") and one whole non-transferable common share purchase warrant (a "Warrant"). Each whole Warrant will be exercisable to acquire one Share at an exercise price of CDN\$0.12 per Share for a period of 24 months from the date of issuance. The NFT Offering is subject to a minimum subscription amount of CDN\$3,150.

Certain insiders of the Company may acquire NFT Units in the NFT Offering. Any participation by insiders in the NFT Offering would constitute a "related party transaction" as defined under Multilateral Instrument 61-101 *Protection of Minority Security Holders in Special Transactions* ("MI 61-101"). However, the Company expects that such participation would be exempt from the formal valuation and minority shareholder approval requirements of MI 61-101 as neither the fair market value of the Units subscribed for by the insiders, or the consideration for the Units paid by such insiders, would exceed 25% of the Company's market capitalization.

Emgold intends to use the net proceeds of the NFT Offering for exploration of Emgold's properties (including property and claims payments) and for general working capital purposes. The Company may pay finder's fees on a portion of the NFT Offering, subject to compliance with the policies of the TSX Venture Exchange and applicable securities legislation. Closing of the NFT Offering is subject to approval of the TSX Venture Exchange.

The securities issued under the NFT Offering, and any Shares that may be issuable on exercise of any such securities, will be subject to a statutory hold period expiring four months and one day from the date of issuance of such securities.

FLOW-THROUGH PRIVATE PLACEMENT

The non-brokered flow-through private placement (the "FT Offering") will consist of up to 10,000,000 units (the FT "Units") at a price of CDN\$0.10 per FT Unit for gross proceeds of up to CDN\$1,000,000. Each FT Unit will consist of one common share in the capital of the Company (a "Share") and one-half of one non-transferable common share purchase warrant (each whole common share purchase warrant, a "Warrant"). Each whole Warrant will be exercisable to acquire one Share at an exercise price of CDN\$0.16 per Share for a

period of 24 months from the date of issuance. The FT Offering is subject to a minimum subscription amount of CDN\$3,000.

Certain insiders of the Company may acquire FT Units in the FT Offering. Any participation by insiders in the FT Offering would constitute a "related party transaction" as defined under Multilateral Instrument 61-101 *Protection of Minority Security Holders in Special Transactions* ("MI 61-101"). However, the Company expects such participation would be exempt from the formal valuation and minority shareholder approval requirements of MI 61-101 as neither the fair market value of the FT Units subscribed for by the insiders, or the consideration for the Units paid by such insiders, would exceed 25% of the Company's market capitalization.

Emgold intends to use the net proceeds of the FT Offering for qualifying exploration of its properties located in Quebec. The Company may pay finder's fees on a portion of the Offering, subject to compliance with the policies of the TSX Venture Exchange and applicable securities legislation. Closing of the FT Offering is subject to approval of the TSX Venture Exchange.

The securities issued under the Offering, and any Shares that may be issuable on exercise of any such securities, will be subject to a statutory hold period expiring four months and one day from the date of issuance

ABOUT EMGOLD

Emgold is a gold and base metal exploration company focused on Nevada and Quebec. The Company's strategy is to look for quality acquisitions, add value to these assets through exploration, and monetize them through sale, joint ventures, option, royalty, and other transactions to create value for our shareholders (acquisition and divestiture (A&D) business model).

In Nevada, Emgold's Golden Arrow Property, the core asset of the Company, is an advanced stage gold and silver property with a well-defined measured and indicated resource. New York Canyon is a base metal property subject to an Earn-in with Option to Joint Venture Agreement with Kennecott Exploration, a subsidiary of Rio Tinto Plc (**NYSE:RIO**). Buckskin Rawhide East is a gold and silver property leased to Rawhide Mining LLC, who operate the adjacent Rawhide Mine and represents a royalty opportunity for the Company.

In Quebec, the Casa South Property, is an early stage gold property adjacent to Hecla Mining Corporation's (**NYSE:HL**) operating Casa Berardi Mine. The East-West Property, which Emgold has an option on to acquire up to a 55% interest, is a gold property adjacent to and on strike with Wesdome Gold Mine Ltd.'s (**TSX:WDO**) Kiena Complex and O3 Mining Corporation's (**TSX:OIII**) Marban Property. Emgold also has a 1% NSR in the Troilus North Property, part of the Troilus Mine Property being explored by Troilus Gold Corporation (**TSX:TLG**).

Note that the location of Emgold's properties adjacent to producing or past producing mines does not guarantee exploration success at Emgold's properties or that mineral resources or reserves will be delineated.
