**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****1) NATURE OF OPERATIONS AND GOING CONCERN**

Emergent Metals Corp. (formerly Engold Mining Corporation) (“Emergent” or the “Company”) was incorporated under the British Columbia Corporations Act on 17 March 1989. The Company’s principal business office is located at c/o Capiche Legal LLP, 620 – 111 Melville Street, Vancouver, BC, V6E 3V9. The Company’s shares trade on the TSX Venture Exchange under the symbol EMR, on the OTC Market as EGMCF, and on the Frankfurt and Berlin Stock Exchanges under the symbol EML.

Emergent is engaged in the acquisition, exploration, and divestiture of mineral property interests, with the objective of generating shareholder value. Transactions may include asset purchases or sales, joint ventures, options, royalties, or other structures appropriate to the specific asset.

These consolidated financial statements have been prepared on a going concern basis, which assumes the Company will continue operations for the foreseeable future and be able to realize its assets and discharge its liabilities in the normal course of business. The Company has incurred cumulative losses, has negative operating cash flows, and is unable to fully finance its planned operations for the 2025 fiscal year without additional funding. The Company’s ability to continue as a going concern is dependent upon its capacity to raise additional financing, generate proceeds from asset transactions, or otherwise obtain sufficient working capital. There can be no assurance that such financing or transactions will be available in the future.

As a result, there is a material uncertainty that may cast significant doubt on the Company’s ability to continue as a going concern. If the going concern assumption were not appropriate, adjustments would be required to the carrying amounts of assets and liabilities, the reported expenses, and the classification of balances in the consolidated statement of financial position. Such adjustments could be material.

As at 30 June 2025 and 31 December 2024, the Company had the following negative indicators.

<b>Rounded to 000’s</b>	<b>30 Jun 2025</b>	<b>31 Dec 2024</b>
Working capital (deficiency)	\$ <b>(1,871,000)</b>	\$ (2,121,000)

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****2) BASIS OF PREPARATION – STATEMENT OF COMPLIANCE****a) Statement of compliance**

These Financial Statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of the interim financial statements, including International Accounting Standard 34, Interim Financial Reporting. As a result, they do not conform in all respects with the disclosure requirements for annual financial statements under IFRS and should be read in conjunction with the Company's audited consolidated financial statements for the year ended 31 December 2024 [SEDAR+](#).

**b) Basis of measurement**

The consolidated financial statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit and loss, which are stated at their fair value. In addition, the consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

**3) SUMMARY OF MATERIAL ACCOUNTING POLICIES**

The accounting policies, sources of estimation uncertainty, critical accounting judgements and methods of computation followed in preparing these Financial Statements are the same as those followed in preparing the most recent audited annual consolidated financial statements with the following exceptions. For a complete summary of significant accounting policies, please refer to the Company's audited annual consolidated financial statements for the year ended 31 December 2024 [SEDAR+](#).

**a) Foreign Currencies**

Effective 01 January 2025, the functional currency of Emergent Metals Corp., the parent company, changed from United States dollars (USD) to Canadian dollars (CAD). This change in functional currency does not represent a change in accounting policy under IAS 8 but it rather reflects the application of existing policies to an evolving set of facts and circumstances. Accordingly, prior period balances have not been restated.

As a result of this change in functional currency, certain warrants previously classified as derivative financial liabilities no longer meet the definition of a financial liability under IAS 32 - specifically, the

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

“fixed-for-fixed” condition is now met because both the exercise price and the underlying shares are denominated in the Company’s new functional currency, CAD.

Accordingly, these warrants were reclassified from a liability to equity effective 01 January 2025. The fair value of the warrants at 31 December 2024, previously measured using the Black-Scholes option pricing model, was transferred to contributed surplus on the statement of financial position. No further fair value remeasurement will be made in subsequent periods.

For unit offerings completed after the change in functional currency, the Company allocates proceeds between shares and warrants using the residual method, whereby the fair value of the shares is measured directly, and the residual amount is attributed to the warrants. The Company considers this method appropriate under IFRS 2 and IAS 32 given the warrants now meet the criteria for equity classification.

This change in allocation method does not represent a change in accounting policy under IAS 8, but rather reflects the application of existing policies to a new set of facts and circumstances arising from the change in functional currency. Accordingly, prior period balances have not been restated.

Transactions entered into by the Company in a currency other than the functional currency are recorded at the rates ruling when the transactions occur, except for depreciation and depletion which are translated at the rates of exchange applicable to the related assets, with any gains or losses recognized in the Consolidated Statements of Comprehensive Loss.

Foreign currency monetary assets and liabilities are translated at current rates on the reporting date with the resulting gain or loss recognized in the Consolidated Statements of Comprehensive Loss.

Exchange differences arising on the retranslation of unsettled monetary assets and liabilities are recognized immediately in Consolidated Statements of Comprehensive Loss. Non-monetary assets and liabilities are translated using historical exchange rates. Non-monetary assets and liabilities measured at fair value in a foreign currency are translated using the exchange rate at the date when the fair value is determined.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****b) Going Concern Assessment**

Management exercises significant judgment in determining whether the going concern assumption remains appropriate, particularly in light of the Company's exploration-stage status, history of operating losses, and reliance on equity financings or asset transactions for funding.

In forming its judgment, management considers the Company's expected ability to generate cash inflows through sales of marketable securities, potential option or joint venture agreements, equity financings, or the divestiture of mineral property interests under its acquisition and divestiture model. The timing and success of such transactions are inherently uncertain and influenced by external factors such as commodity prices, investor sentiment, and capital market conditions.

While the Company has a demonstrated history of raising capital and managing its liquidity proactively, the continued ability to access financing remains a key assumption underlying the going concern basis of preparation.

**4) AMOUNTS RECEIVABLE**

The Company's receivables are comprised of goods and services tax from government taxation authority, and other receivables as follows:

**Table 1 Amounts receivable**

<b>Amounts receivable rounded 000'S</b>	<b>30 Jun 2025</b>	<b>31 Dec 2024</b>
