As previously announced, Emgold is proceeding with its acquisition of an 80% interest in the Golden Arrow gold-silver property in Nevada (the "Golden Arrow Property"). The Golden Arrow Property is an advanced-stage exploration property with a comprehensive exploration database including geochemical sampling, geophysics, and over 190,000 feet of reverse circulation and diamond core drilling. A description of the property and details of the acquisition can be found in the Company's press release dated July 18, 2017.

Also as previously announced, Emgold intends to complete an equity financing (the "Offering") in conjunction with the execution of a definitive option agreement for the Golden Arrow Property. The net proceeds of the Offering will be used to fund the initial acquisition cost of the Golden Arrow Property, to conduct exploration on the property and Emgold's other properties, and for general working capital purposes. Details of this financing will be forthcoming.
